## Spokane River Regional Toxics Task Force

June 22, 2015

**Visit SRRTTF**

[www.srrttf.org](http://www.srrttf.org)

Good Afternoon Task Force,

The Spokane River Forum recently commissioned Robinson Research to conduct a Spokane River Water Quality public opinion telephone surveys in Kootenai, Spokane, Lincoln and Stevens Counties. Two reports on these surveys are now available. One report provides results for Spokane, Lincoln, and Stevens Counties in Washington; the other for Kootenai County in Idaho. The Kootenai County report also compares similarities and differences with WA respondents. The reports are available on the [Task Force Website](#).

Andy Dunau of the Spokane River Forum emphasizes that "There are, of course, many ways to analyze and correlate data." Andy would like the Task Force to know that if there are particular items they are interested in or would like more detail on, let him know and they will see if it can be mined from the survey data.

Adriane Borgias and Marlene Feist were at a meeting where they discussed the survey results. Marlene has a PowerPoint presentation from Robinson Research that can be made available for a Task Force meeting presentation.

Task Force members are asked to let Chris Page (Ruckelshaus Center, [c.page@wsu.edu](mailto:c.page@wsu.edu)) know if they think it would be valuable to have a presentation on this topic at an upcoming Task Force meeting.
